EXECUTIVE SUMMARY

8+ years building from people management expertise to technical leadership, creating the perfect blend of delivery excellence and technical depth. Transformed teams, built practices from ground up, and scaled operations to 10x potential across sales, operations, and AI-powered analytics domains.

Key Metrics:
Led 50+ team members, delivered $2M+ cost savings, built 3 practices from scratch, achieved 95% user adoption across enterprise transformations.

People Management & Team Building | Practice Development & Scaling | Technical Leadership & Delivery | Business-Technology Translation | AI-Powered Analytics Strategy

PROFESSIONAL EXPERIENCE

INFOLOB — Hyderabad, India

Oct 2024 — Present

Lead Data Analytics Engineer

Oct 2024 — Present

- **Practice Leadership:** Building analytics engineering practice from ground up, establishing delivery frameworks and technical standards
- **Team Nurturing:** Mentoring 5+ engineers on technical excellence, career development, and best practices in data engineering
- **Technical Delivery:** Leading enterprise AI-enhanced analytics solutions for Fortune 500 clients

ITVersity, Inc. — Hyderabad, India

Jul 2023 — Oct 2024

Senior Analytics Engineer

Apr 2024 — Oct 2024

- **Technical Excellence:** Led $1.2M cost-saving AWS→OCI migration with 40% performance improvement and 99.9% uptime
- **Team Development:** Mentored 8 junior engineers, established CI/CD practices, and built technical competency frameworks
- **Delivery Leadership:** Deployed enterprise Power BI platform with RLS, gateways, and API automation for 500+ users

Associate Data Engineer

Jul 2023 — Mar 2024

- **Technical Foundation:** Built 15+ Power BI dashboards with semantic models, RLS implementation, and governance frameworks
- **Process Innovation:** Established documentation standards, stakeholder demo processes, and knowledge transfer protocols
- **Skill Development:** Mastered modern data engineering practices, CI/CD workflows, and enterprise-grade solutions

Elevate X (Khazana Group) — Hyderabad, India

Dec 2020 — Jun 2023

Deputy General Manager — Data Analytics Transition

Dec 2020 — Jun 2023

- **Career Transformation:** Successfully pivoted from people management to technical leadership, bridging business and technology domains
- **Practice Building:** Built data analytics practice from scratch, establishing governance, training programs, and technical standards
- **Team Scaling:** Led digital transformation initiative, achieving 95% user adoption and 25% operational efficiency improvement
- **Technical Delivery:** Designed and implemented Power BI dashboards, semantic models, and data governance frameworks

HomeLane Hyderabad, India

Jan 2019 — Dec 2020

Assistant Sales Manager

Aug 2019 — Dec 2020

- **Team Excellence:** Built top-performing unit with 15% conversion rate, achieving #1 PAN-India ranking within 4 months
- **Process Innovation:** Introduced data-driven decision support systems and Excel dashboards for operational efficiency
- **Customer Focus:** Strengthened customer empathy and handover processes, improving post-sale satisfaction and referrals

Field Sales Manager

Jan 2019 — Aug 2019

- **Revenue Leadership:** Generated ₹1 Cr monthly sales, led 20-member team, boosted meeting success from 65% to 90%
- **Team Development:** Coached field reps on discovery and solution framing, improving conversion quality and cycle time
- **Recognition:** Awarded Best Field Sales Manager for consistent goal attainment and team development excellence

Amazon India

Jun 2016 — Dec 2018

Team Lead

Jun 2017 — Dec 2018

- **People Management:** Improved team productivity by 20% through workflow optimization, coaching, and performance management
- **Operational Excellence:** Reduced completion time by 15% by streamlining queues, clarifying SOPs, and implementing best practices
- **Team Building:** Lifted team morale by 25% with clear goals, recognition programs, and regular feedback mechanisms

Senior Customer Service Associate

Jun 2016 — May 2017

- **Service Excellence:** Maintained 95% CSAT, handled 50+ inquiries daily, implemented CRM improvements reducing response time by 20%
- **Process Improvement:** Analyzed trends to reduce repeat issues by 15%, building foundation for leadership roles

TECHNICAL SKILLS

LEADERSHIP & PEOPLE MANAGEMENT

Team Building, Performance Management, Career Development, Practice Building, Stakeholder Management

CLOUD & DATA PLATFORMS

Oracle Cloud (OCI), AWS, Azure, Oracle ADW, Amazon Redshift, PostgreSQL

ANALYTICS & BI

Power BI, Tableau, OAS/OBIEE, DAX, Semantic Models, RLS, Performance Tuning

DATA ENGINEERING

SQL, Python, Spark, ODI, OCI Data Integration, ADF, dbt, Airflow, Power Query

AI & AUTOMATION

RAG, LLM Integration, AI Tools (Cursor, ChatGPT, Copilot), Vector Databases

DEVELOPMENT & OPERATIONS

Django, FastAPI, React, REST APIs, Apps Script, Git, CI/CD, DevOps Practices

KEY PROJECTS

See details in portfolio

AWS → OCI Data Lake Migration

AI-first cross-cloud migration for multinational FMCG: intelligent data discovery, automated tiered storage optimization, Oracle ADW federation with AI-powered cost optimization achieving ~30% lower cost and 99.9% pipeline uptime.

ITVCMS Platform

AI-first training operations platform with intelligent mentor matching, automated content curation, and smart integrations for Udemy and YouTube metadata with AI-powered learning path recommendations.

Oracle Analytics Server on OCI for Logistics

Upgrade journey: OBIEE 10g → OAS on OCI with hardened networking, automated deploys, RCU setup, and catalog migration for a PAN-India logistics firm.

RAG Chatbot on OCI

AI-first multi-lingual RAG chatbot with intelligent vector search, context-aware responses, prompt safety, and comprehensive observability featuring automated sentiment analysis and intent recognition.

Google Workspace Automations

AI-first end-to-end lead pipeline with intelligent lead scoring, automated segmentation, smart routing, automated follow-up scheduling, and intelligent notifications with AI-driven lead qualification.

Odoo Partnership Implementations

Partnered to implement Odoo for multiple customers, converting business workflows into technical processes, data pipelines, and reporting solutions.

OCI Data Lake for Pharma

AI-first pharmaceutical data lake with intelligent drug development lifecycle monitoring, FDA compliance automation, automated clinical trial analytics, and real-time safety monitoring with Tableau Einstein AI.

dbt Enablement — BFSI (3-week)

Hands-on enablement for a large BFSI on dbt best practices: Git workflows, tests, lineage, environments, and CI/CD implementation.

GCP Data Warehouse for Insurance Analytics

AI-first insurance analytics platform with intelligent risk assessment, automated claims modeling, automated fraud detection, and smart customer segmentation with AI-powered pricing optimization.

EDUCATION & CERTIFICATIONS

Bachelor's Degree | Computer Science

OCI Geni AI Professional (Oracle) • Certified dbt Developer (dbt Labs) • dbt Advocate (dbt Labs) • Business Analytics (LUDIFU)
